

PARTY HAT

Print this page as many times as needed to create party hats for your guests. Once printed cut around the edge and then cut along the thick dashed line to create a slot for the tab. Roll the cone and insert the tab into the slot. Fix with tape. Finally, either cut a length of thin elastic and fix this to the base of the hat so it will go under the chin. Or, if using ribbon, cut two lengths so the hat can be tied on.

BUNTING

Print this page as many times as you need.
Cut out each bunting flag and then hole punch the white circles where shown.

Feed string or ribbon through the holes and thread the flags together to create a length of bunting.
If you need to make the length more secure, use sticky tape to keep the triangles in place.

PAPER CHAINS

Make swags of colour for your celebration with these paper chains.
Print this page as many times as needed. Cut out each piece along the dashed lines.
Then link the pieces into a chain using sticky tape to fix them as you go.
